

2nd Scientific Meeting of the TINNITUS RESEARCH INITIATIVE

17 - 21 July 2007, Principality of Monaco

TOWARDS A BETTER UNDERSTANDING OF TINNITUS

Dear Friends and Colleagues,

We are very pleased to announce the Second Tinnitus Research Initiative Meeting in the Principality of Monaco, taking place from July 17th to 21st 2007.

Following the spirit of the first meeting we want to further encourage multidisciplinary dialogue and international cooperation. We are convinced that communication between researchers, and a collaborative effort among participating institutions, will facilitate both, a more profound understanding of the different forms of tinnitus and the development of more effective diagnostic and therapeutic measures. To further intensify collaboration we want to gather current and future participants of the Tinnitus Research Initiative Network.

We hope you will experience a lively exchange of scientific and clinical information and will enjoy the Principality of Monaco as congress venue with its international atmosphere and its very beautiful seaside. Please advise us if you are planning to attend the meeting and mark the conference date in your calendar.

Matteo de Nora

Ron Goodey

Aage Møller

Berthold Langguth

Topics will include:

Pathophysiology of tinnitus

Somatic tinnitus

Pharmacotherapy

Cochlear and auditory stimulation

Delineation of different tinnitus subtypes

Diagnosis and assessment of tinnitus

Brain stimulation

with special focus on:

Multicenter collaborative research

Translational research
(from animal model to patient treatment)

Case studies

Tinnitus treatment centres

Promising innovative research topics

Further suggestions are welcome

The number of participants will be limited. Please apply for admission at Berthold.Langguth@tinnitusresearch.org.

Deadline for abstract submission

April 30th, 2007

Deadline for registration

April 30th, 2007

Registration fee (including social program) 400 Euro (travel awards will be available)

Congress Venue:

Hotel Le Méridien Beach Plaza, 22 Avenue Princesse Grace, 98000 Principality of Monaco,
